2023-2024学年第二学期，受外方合作院校派遣，我校中英、中德合作办学项目外方专业课程共有3名外教来校授课，带来了丰富的国际化教育体验。截至今日，本学期中外合作办学项目引进外方课程授课圆满结束。

In the second semester of the academic year 2023-2024, a total of three foreign teachers were dispatched by the foreign institutions to teach the foreign professional courses of our Sino-British and Sino-German Joint Programmes, which brought students international education experience. As of today, the teaching of foreign courses of the Chinese-foreign cooperation programmes has successfully completed in this semester.

来校授课外籍教师以其专业的知识理论和独特的教学方法，注重培养学生的批判性思维、团队协作和创新能力，激发他们对本专业的学习兴趣。此外，授课外教还致力于培养学生的国际视野，使他们能够更好地适应全球化背景下的发展。

With their professional knowledge and theories and unique teaching methods, the foreign teachers focus on cultivating students' critical thinking, teamwork and innovation, which stimulates students' interest in this field of study. In addition, the foreign teachers are also committed to cultivating students' international outlook so that they can better adapt to the development in the context of globalisation.

在专业外教来校授课过程中，我校为外教一对一配备的中教助教也架起了课程衔接和语言沟通的桥梁，扫除了学生们的跨文化沟通障碍，提升了外教来校授课的教学效果和文化体验感。

In the teaching process of foreign teachers, the Chinese teaching assistants of our college, who are equipped with foreign teachers on a one-to-one basis, also build a bridge between the curriculum and language communication, clearing the language and cross-cultural communication barriers for the students, and enhancing the teaching effect and cultural experience of the foreign teachers.
